

RELEAVES[®]

DIETARY SUPPLEMENT

USE ORALLY FOR:

- Suspected hormonal imbalances in any animal
- Chronic egg laying in birds and reptiles
- Stopping egg production in birds and reptiles that have problems associated with egg laying when used in conjunction with light therapy
- Behavioral problems with a suspected hormonal cause, such as feather picking
- Strengthening and invigorating the uterus and restoring the female urogenital system

BENEFITS

✓	Is high in polyphenols, which counteract the animal's hormonal imbalance
✓	Is high in antioxidants
✓	Is a rich whole food source of vitamin B complex, vitamin C, tannins, calcium, magnesium, phosphorus and potassium
✓	Virgin, certified organic, whole food source of carotenoids (precursors to natural vitamin A, including alpha-carotenes, beta-carotenes, lycopene and 20 other carotenes)
✓	Non-synthetic source of 6 forms of vitamin E, which contain 2 forms of tocopherols and all 4 of the tocotrienols (super potent vitamin E with 60 times the antioxidant activity of the tocopherols)
✓	Contains the necessary dietary fat for enhanced conversion and absorption of fat-soluble vitamins A, D, E & K
✓	Is a natural, rich source of coenzyme Q ₁₀ (CoQ ₁₀)
✓	Is packed with vitamin K, squalene, phytosterols, flavonoids, phenolic acids, glycolipids and phytonutrients
✓	Is non-synthetic (all natural) and has no fillers or GMOs
✓	Is safe and effective for all species (dogs, cats, all mammals, birds, reptiles and other exotic animals)

INGREDIENTS

A proprietary blend of certified organic, sustainable red palm fruit oil enhanced with certified organic, alcohol-free red raspberry extract and leaves

QUALITY ASSURANCE AND STORAGE

Releaves[®] is a sustainable product grown on long established farms and *not* harvested from tropical rainforests. It is unprocessed, pure and chemical-free without any fillers. Releaves[®] is hand-crafted in small batches in the USA to ensure the highest possible quality. Our proprietary formula contains all 4 tocotrienols, which serve as natural preservatives to ensure increased stability and extended shelf life without artificial preservatives. Releaves[®] may be stored in the refrigerator or cabinet after opening and should be stored away from direct sunlight. **Use by “Best by” date located on the bottom of the bottle.**

DIRECTIONS

- **To mix with food:** Combine 1 TBS (15 ml) Releaves[®] with 1 lb (455 g) of the animal's food. Mix and return to original food container. Feed and store normally. Refrigerate unused portion of top-dressed food.
- **To administer orally** with a clean utensil: 0.3 ml per lb (0.45 kg) body weight (1 TBS per 50 lb) or 0.06 ml per 100 g body weight. Releaves[®] may be liquefied by floating bottle in warm water (80°F [27°C]) for a few minutes.
- **For chronic egg-laying birds**, begin supplementation while providing continuous light for a total of 3-7 days (i.e., 72-168 hours continuously). After 3-7 days, resume normal daylight cycles. Then continue offering Releaves[®] once daily for up to 6 months. For more information go to www.ChronicEggLaying.com.
- **For tips on how to administer** Releaves[®] go to Tips.HEALx.com.
- *Note: Do not use Releaves[®], Sunshine Factor[®] and Booster[®] together unless directed by your veterinarian.*

SAMPLE DAILY DOSAGES

5 lb (2.27 kg)	1.5 ml (¼ tsp)
10 lb (4.5 kg)	3 ml (½ tsp)
25 lb (11.3 kg)	7.5 ml (1½ tsp)
50 lb (22.6 kg)	15 ml (1 TBS)
75 lb (34 kg)	23 ml (4½ tsp)
100+ lb (45 kg)	30 ml (2 TBS)
Birds	0.06 ml per 100 g body weight
Rabbits, guinea pigs	Start with 0.1 ml and increase as indicated
